FREDERICK K. DUMONT of Cincinnati cut his throat in a fit of despondency caused by bad cigarettes.

THE 8x10 town officials who order quarantines ought to consult the proper state authorities before they make themselves ridiculous.

The Government will hereafter demand a strict enforcement of the Sherman anti-Trust Law, and violators will be in about the same position as moonshiners and counterfeiters.

The exact center of Kentucky has been located on the Harrodsburg pike three miles from Danville. It will be marked by an iron monument and fenced in so that it can't get away.

It's too bad to tramp on a man when he's down. The Postoffice fellows at Washington had ought to be ashamed of themselves all over. Among the little 8 by 13 Postoffices ordered discontinued in Kentucky is "Deboe."

THE Pennsylvania Legislature has passed five new laws designed to improve the condition of miners in that state. A law that would have prevented the late anthracite strike would have improved the condition of the miners to the tune of many millions lost in wages.

Hon. John K. Hendrick, one of the three Democratic entries for the gubernatorial stakes, went to Lexington to speak; but when he reached the Hall there was an audience of just three—one for each candidate. He merely spoke to each one; and then they all took a walk.

ATLANTA has developed a "sassiety" duck who spent in a few years \$93,457.42 of a National Bank's money on a salary of \$83.33\frac{1}{3} a month. He will probably spend the next fifteen or twenty years in the Penitentiary thinking over what a real nice time he had, while the foolish girls who basked in his smiles will look for another soft mark. Of course they will take to themselves no part of the blame for leading him astray.

Fire, caused by lightning, destroyed the big barn of E. G. Martin at Scottsville, entailing a loss of \$12,000 with no insurance.

A CITIZEN DISCUSSES.

A Vital Question Fraught With Interest to Maysville People.

When a citizen right here at home makes a public statement like the following all room for doubt disappears and the most skeptical must be convinced. It's pretty hard for our readers to prove a statement made by a stranger living in some far-away point of the Union. The indorsement of neighbors, friends and citizens is the best of proof; no better evidence can be had.

Mr. P. Gantley, grocer of 314 East

Fourth street, says: "The prompt and thorough relief from backache given by Doan's Kidney Pills is the strongest indorsement pessible. When backache is caused by the lack of proper action of the kidneys the only reason for continuing to suffer is the want of knowledge of Doan's Kidney Pills. I prosured them at J. Jas. Wood & Son's Drugstore, West Second and Market streets."

SMALLPOX can't be suppressed by proclamstions, banners and brass bands; and every putlic demonstration makes matters worse.

RECENT discoveries in Peru indicate that a great civilization prevailed there and that the country was occupied by a people more highly cultured than the Incas as long ago as before the Trojan War, and at least 2,000 years before the Spaniards came. It isn't intimated who taught these ancient snoozers the arts of football, cigarettes and other accessories of their civilization.

Ir sufficient evidence can be obtained it is not unlikely that the Housesmiths and Bridgeworkers Union, which is attempting to tie up the work on the cantilever crane for the battleship Connecticut at the Brooklyn Navy Yard, because the company refuses to employ Union men, will be indicted for conspiracy against the Government. It will then be a contest to prove which is the bigger man-Uncle Sam or the Walking Delegate.

A DRUNKEN snoozer laid down on the tracks of the Cincinnati, New Orleans and Texas Pacific Railway in Grant county for a good night's sleep; a Near-sighted Train with a Blind Engineer came skimming along over its own narrow pathway and nipped off both of the snoozer's legs off; then a Damage Suit Lawyer went into Uncle Sam's Court with a modest claim for \$10,000 per leg—\$20,000 in all. And when the Damage Suit Lawyer undertook to prove that the Blind Engineer of the Nearsighted Train saw the snoozer snoozing on the road-bed that he hadn't paid rent for, his witnesses failed him and his \$20,000 claim went out over the back fence.

IMPORTANT DECISION.

New York World.

The decision of the Supreme Court that Congress has power to prohibit the sending of lottery tickets from one state to another by means other than the mails is of very great importance. For, far beyond arming the Nation to stamp out an offensive fraud by which fools are parted from their money, it seems by implication also to affirm the authority of the people over all forms of inter-state commerce whatever.

The action of Congress moderately increasing the pay of all Federal Judges seems to have been misunderstood. Under the new law Federal District Judges will hereafter receive \$6,000 a year instead of \$5,000. That is not so much of an increase, but then people are not in the habit of paying Judges what they are worth, and they naturally cial-double seated, full, well-made Pepperell Jean Drawers 25c. complain when they hear of one's getting a little increase

Paint Facts!

There is no use wasting money on paint, and it is a waste to apply anything but pure lead, zinc and oil. Half the brands of ready-mixed paints contain naphtha, resin, whiting, etc. Some contain no lead at all. You know why these make shifts are used. Make sure of absolutely pure paint. You get it in

PAINT!

This is the paint that the United States Government uses on barracks, etc., in the Southwest and on the alkali plains where the sun and heat is hard-est on paint. Nobody disputes the re-liability of this brand. It is all that a paint should be. Goes farther, covers better and lusts longer than any other.
